

VT SP-Series

1~20kVA

1:1 Phase

Applications:

For all kind of ADP Machines

Features:

- ◆◆ True Online, Double Conversion & PWM Technology.
- ◆ Fully Digitized Microprocessor Control, High Frequency & Pure Sine Wave Output.
- ◆◆ CVCF (Constant Voltage Constant Frequency)
- ◆◆ LC Display and Wide Input Voltage Range
- ◆◆ High Input Power Factor >0.99
- ◆◆ Static Bypass and Cold Start
- ◆◆ IGBT Based - Inverter & Rectifier
- ◆◆ Isolation Transformer Compatible
- ◆◆ Advanced Battery Management
- ◆◆ Lithium-ion Battery Compatible
- ◆◆ EMI/RFI and Noise Filter
- ◆◆ Generator and Solar Compatible
- ◆◆ High Reliability Digital Control
- ◆ Auto-start Function
- ◆◆ ECO Mode

Rear Panel

1. RS232
2. Intelligent Slot / SNMP(Optional)
3. External Battery(Optional)
4. Fan
5. Output Sockets
6. Power Breaker
7. Input
8. Output Terminal Block
9. EPO(Optional)
10. Maintenance Switch
11. Parallel Slot
12. Terminal Block (Input, Output & Battery)
